

Your Great Ideas About AT Assessment

Models of Consultation Discussion Questions

- What is your current consultation model?
- What barriers do you encounter in your consultative services
- How might a different model of consultation change what you do?
- How might the barriers you identified be addressed using this model?

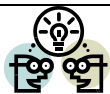

Quality Indicators

- How did you rate your AT services?
- What aspects of your services would you like to improve?
- What barriers to improvement do you encounter?

Framing the Question and Levels of Participation

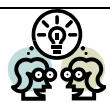

- How might you use *Levels of Participation* and *Framing the Question* with building level teams?
- What other strategies do you use to set the stage for the AT assessment?
- What role might building level teams play in identifying levels of participation and framing the question?

Using SETT With Teams

How might you encourage team involvement in the following assessment steps?

- Gather information?
- Identify tools and strategies?
- Conduct trials?
- Analyze data with the team?

Collaborative Implementation Planning Strategies

- Student's AT Competence
- Classroom Procedures
- Evaluation of Effectiveness

Tools and Procedures to Support AT Services

- Review one or more tools
- Identify forms/strategies that you might use in your practice
- How might you use/modify them to support your approach to AT Assessment?
